

Why work for EPIC?

EPIC teachers want to make a difference. Many of our teachers come to us straight out of college; others were retired and decided they wanted to work on a part-time basis. Above all, EPIC teachers have the satisfaction of knowing they help improve the lives of others. EPIC teachers make social change, inspire entrepreneurs, and give disadvantaged young adults opportunities to overcome social and economic barriers. Yes, our classrooms will challenge you, but if you like multicultural students who are grateful for your service, where you get involved with learning design and assessment, and where you have the freedom to meet students' needs one-on-one, EPIC could be the right place for your future.
